

# What is VEOLIA doing in Palestinian East Jerusalem and the West Bank ?

- Veolia is building and will run a major tramway linking Illegal Israeli Settlements in Palestinian East Jerusalem
- Veolia runs buses on road 443 which West Bank Palestinians cannot travel on
- Veolia dumps waste from Illegal Israeli Settlements onto Palestinian land
- These actions mean Veolia is actively helping Israel in its grave breaches of the Geneva Conventions and International Law

## • In East Jerusalem and the West Bank Israel is:-

- Evicting Palestinians and demolishing their homes.
- Confiscating the fertile Palestinian farm land of the Jordan Valley.
- Expanding the Illegal Settlements, stealing land and water resources.
- Building its Apartheid Wall deep within Palestinian land and suffocating Palestinian daily life with hundreds of checkpoints.

## • Gaza:

- Is still under an Israeli siege designed to make Palestinians destitute and aid-reliant.
- This is even after 1400 Palestinians were killed by Israel in its 'Operation Cast Lead' attack on Gaza.

Illegal  
Under  
International  
Law

**VEOLIA** : A multinational  
Profiting directly from  
Israel's Illegal Occupation
